Ohio Facilities Construction Commission Selects Hill International to Provide Owner Agent Services For Two New School Buildings

July 5, 2018

PHILADELPHIA, PA and COLUMBUS, OH – July 5, 2018 – Hill International (NYSE: HIL), the global leader in managing construction risk, announced it was selected to provide owner agent services for two new schools for Fairborn City Schools in Greene County, Ohio.

Hill will serve the owner during the pre-construction, construction, and closeout phases during construction of a 130,444 SF, Pre-K through 2nd grade school and a 3rd through 5th grade school that will total 100,497 SF. The former building will house more than 1,200 Pre-k through 2nd grade students, while the latter will house approximately 900 3rd through 5th graders.

“There are few things more important than providing a solid education for the youth of America, and Hill is honored to be entrusted with serving on this significant project that will have wide-ranging impacts for years to come,” Project Manager Brice Clawson, CCM, LEED AP, said. “When these projects are completed, Fairborn City’s students will have two state-of-the-art school buildings.”

The construction for the Pre-k through 2nd grade school will occur first. Then, following abatement and demolition of the current Fairborn Intermediate School, construction will begin on the new 3rd through 5th grade school. After all new construction is complete, abatement and demolition of an additional three existing school facilities will occur. Both new buildings are targeting LEED Silver certification.

Hill International, with more than 3,000 professionals in more than 50 offices worldwide, provides program management, project management, construction management and other consulting services to clients in a variety of market sectors. *Engineering News-Record* magazine recently ranked Hill as the eighth-largest construction management firm in the United States.
