Marsh Creek Road Bridge Replacement Project Receives Approval to Begin Construction Hill International to Provide Construction Inspection Services

July 30, 2018

PHILADELPHIA, PA and SAN FRANCISCO, CA – July 30, 2018 – Hill International (NYSE: HIL), the global leader in managing construction risk, announced it will provide construction inspection services for the Marsh Creek Road Bridge Replacement Project in Martinez, CA.

Hill is serving as a major subconsultant to Construction Manager Substrate, Inc., following approval by the Board of Contra Costa County.

The bridge replacement, approved for \$4.9 million, will be a pre-cast/pre-stressed concrete structure, spanning over Marsh Creek, near Mount Diablo State Park. This project will bring the bridge up to appropriate standard for residents to use, as well as aid in creek maintenance.

“This win gives us an opportunity to assist Contra Costa County with this important infrastructure project that will benefit residents and businesses alike,” said Hill’s Vice President, Bernardo Hernandez. “We are excited to assist local firms with this win and are confident that the team will be able to deliver this project on time and under budget, while meeting the standard of quality the local community deserves.”

The Marsh Creek Road Bridge Replacement will be a two-stage project. The overall replacement includes removing the existing structure, reconstructing the pavement, widening the creek channel, upgrading the drainage systems, installing a soldier pile retaining wall, relocating the existing water main, and adding signage and striping.

Hill International, with more than 3,000 professionals in more than 50 offices worldwide, provides program management, project management, construction management and other consulting services to clients in a variety of market sectors. *Engineering News-Record* magazine recently ranked Hill as the eighth-largest construction management firm in the United States.
