Hill International to Provide On-Call Construction Management Services for the Port of Oakland

October 11, 2018

PHILADELPHIA, PA, and OAKLAND, CA, October 11, 2018 – Hill International, Inc., the global leader in managing construction risk, announced it received a three-year contract to provide on-call construction management services for federally funded projects for the Port of Oakland.

Hill will provide the Port with a full complement of construction management, project control, inspection, and office engineering services for a range of marine, aviation, and commercial real estate projects. Hill will also support the Port with expertise in federal, state, and local codes.

“Delivering high-quality, on-call services has long been a foundation at Hill,” said Project Manager Andy Kreck, PE, CCM. “We have a proven track record of providing rapid-response solutions to an assortment of projects, which is the essence of an on-call assignment, and we are certainly positioned to serve the Port during an exciting growth period over the next three years.”

Hill International, with approximately 2,800 professionals in more than 50 offices worldwide, provides program management, project management, construction management and other consulting services to clients in a variety of market sectors. *Engineering News-Record* magazine recently ranked Hill as the eighth-largest construction management firm in the United States. Forward Looking Statements

Certain statements contained herein may be considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, and it is our intent that any such statements be protected by the safe harbor created thereby. Except for historical information, the matters set forth herein including, but not limited to, any statements of belief or intent, any statements concerning our plans, strategies and objectives for future operations; and any statements regarding our intent to file late periodic reports or relisting on a national securities exchange, are forward-looking statements. These forward-looking statements are based on our current expectations, estimates and assumptions and are subject to certain risks and uncertainties. Although we believe that the expectations, estimates and assumptions reflected in our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause our actual results to differ materially from estimates or projections contained in our forward-looking statements are set forth in the Risk Factors section and elsewhere in the reports we have filed with the Securities and Exchange Commission, including that unfavorable global economic conditions may adversely impact our business, our backlog may not be fully realized as revenue, our expenses may be higher than anticipated, and the review of the Company's accounting, accounting policies and internal control over financial reporting, and the preparation of and the audit or review, as applicable, of filings may take longer than currently anticipated or additional restatement adjustments may be identified. We do not intend, and undertake no obligation, to update any forward-looking statement.
