Hill International Selected as Project Manager for Central Asia's Largest Mosque

March 28, 2019

PHILADELPHIA, Pa. and NUR-SULTAN, Kazakhstan, March 28, 2019 (GLOBE NEWSWIRE) -- Hill International (NYSE:HIL), the global leader in managing construction risk, announced today it was selected by the Astana-20 State Fund to provide project management services for the development of the Mosque in the capital of Nur-Sultan, Kazakhstan.

Planned to be the largest mosque in Central Asia and CIS at 57,000 SQM, the Mosque will shape the landscape of Kazakhstan's capital city, adding a new iconic structure next to another successfully completed project managed by Hill International: the EXPO 2017 site.

"With a successful track record in Central Asia, we understand the approach needed to manage mega-projects in the region, and we look forward to supporting our client in the realization of the project from concept design to the first spiritual gathering under the Main Prayer Hall's Dome," said Serdar Gucar, Hill's Vice President and Managing Director for Turkey and CIS. "Hill is proud to participate in writing another chapter in the history of Kazakhstan's achievements and innovations," Gucar added.

Located in the ancient central hub city of the Silk Road, the new Mosque's ground-breaking ceremony was March 18th. The project will be home to more than 30,000 believers and is scheduled for completion in 24 months.

About Hill International

Forward Looking Statements

Certain statements contained herein may be considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, and it is our intent that any such statements be protected by the safe harbor created thereby. Except for historical information, the matters set forth herein including, but not limited to, any statements of belief or intent, any statements concerning our plans, strategies, and objectives for future operations; and any statements regarding our intent to file late periodic reports or relisting on a national securities exchange, are forward-looking statements. These forward-looking statements are based on our current expectations, estimates and assumptions and are subject to certain risks and uncertainties. Although we believe that the expectations, estimates, and assumptions reflected in our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause our actual results to differ materially from estimates or projections contained in our forward-looking statements are set forth in the Risk Factors section and elsewhere in the reports we have filed with the Securities and Exchange Commission, including the preparation of and the audit or review, as applicable, of filings may take longer than currently anticipated. We do not intend, and undertake no obligation, to update any forward-looking statement.
