Mission Statement
Hill International’s mission is to be the very best professional services firm in the world helping our clients minimize the risks inherent in the construction process.

Corporate Summary
For more than 35 years, public- and private-sector clients worldwide have selected Hill International (NYSE:HIL) as construction consultants on their most complex projects. Each of our clients has unique needs and goals, yet they choose Hill because they need experts who can prevent problems, minimize risks and eliminate surprises – they need a firm they can trust who will deliver results. Meeting our clients’ diverse needs in managing construction risk and exceeding their highest expectations is our goal at Hill. We accomplish this objective by providing a broad range of project management, construction claims and consulting services that support our clients during every phase of a project, from concept through completion. With 3,000 employees in 100 offices in 30 countries around the world, Hill has the experience and the expertise to help our clients deliver their projects on time, within budget and with the highest quality possible.

Filed with the Securities and Exchange Commission. We do not intend, and undertake no obligation, to update any forward-looking statement.

Certain statements contained in this annual report may be considered “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, and it is our intent that any such statements be presented by the safe harbor created thereby. Except for historical information contained in this annual report, the matters set forth herein, including, but not limited to, any projections of earnings or other financial items; any statements concerning our plans, strategies and objectives for future operations; and any statements regarding future economic conditions, performance, and forward-looking statements. These forward-looking statements are based on our current expectations, estimates and assumptions and are subject to various risks and uncertainties, and therefore, we caution you that actual results could differ materially from those projected or anticipated in any of our forward-looking statements. Important factors that could cause our actual results, performances and achievements, or industry results to differ materially from expectations or projections contained in our forward-looking statements include: uncertainties concerning our clients’ business cycles; our ability to achieve contract awards from our clients; the terms of our contracts, including the performance of our subcontractors; the effect of changes in the cost of labor, materials and equipment, including fuel and power; our ability to control the cost of our contracts; the effect of increases in unemployment levels; the effect of competitive bidding; our ability to manage our growth; our ability to attract and retain qualified personnel; the possible effects of changes in governmental regulations; the possible effects of governmental investigations into our business practices; the possible effects of our acquisitions and strategic alliances on our business; the possible effects of the proposed and pending sales of our existing businesses; our ability to maintain or increase our liquidity; the effect of changes in our credit ratings; our ability to maintain our relationships with our key customers; changes in foreign currency exchange rates; the possible effects of changes in interest rates, as well as the other factors and uncertainties that are set forth in the “Risk Factors” and “Forward-Looking Statements” sections of this annual report and otherwise set forth in our other filings with the Securities and Exchange Commission. The Company’s annual report on Form 10-K is available over the Internet at the Securities and Exchange Commission’s website at www.sec.gov.

Certification
The Company’s Chairman and Chief Executive Officer has certified to the New York Stock Exchange (“NYSE”) that he is not aware of any violation by the Company of the NYSE corporate governance listing standards, as required by Section 303A.12(a) thereunder.
Hill International’s motto is that we are “the global leader in managing construction risk.” Many risks in our industry are manageable, and we are very much a leader in helping our clients manage risk on their major construction projects and programs around the world. But many risks in our industry are not. The cyclical nature of construction is one of the largest risks of our industry. We have managed that risk by replacing what was strong organic growth with growth through acquisition. This has enabled us to continue our firm’s growth during a prolonged global recession and strengthened our geographic diversity.
We have also made significant investments in new business opportunities focused primarily on providing real estate development services. That altered strategy has come with a cost, however, and that cost has been lower profits. We believe this cost is short-term and that these investments, in acquired companies and new business ventures, will pay off significantly in the long-term.

2010 Financial Results

Hill's total revenue grew to $451.8 million last year, an increase of 7% over 2009. Our consulting fee revenue increased 5% over the prior year, to $382.1 million. Both of the above dollar amounts were an all-time record for Hill. Our growth in revenues was recognized once again by The Zweig Letter, which ranked Hill on their “Hot Firms 2010” list as the 10th fastest-growing firm in the construction industry in the U.S. and Canada over the past four years. We have now made that distinguished list a remarkable eight times in the past nine years.

While we continued to grow our revenues, primarily from acquisitions, the ongoing poor economic conditions had a negative impact on our bottom line. Hill earned an operating profit last year of $18.6 million, down 30% from the prior year, and our net earnings were down 27%, to $14.2 million (or $0.36 per diluted share).

Hill’s Project Management Group saw similar results in 2010, with increased revenues driven by acquisitions but lower profits. Total revenue for the Projects Group rose to $352.8 million, an increase of 6% over 2009. Consulting fee revenue in 2010 for our Projects Group rose to $286.5 million, an increase of 4% over the prior year. Yet operating profit for the group was $36.1 million, down 17% from 2009.

The situation was significantly better at Hill’s Construction Claims Group. Total revenue in 2010 for the Claims Group was $99.0 million, an increase of 10% over 2009. Consulting fee revenue for the Claims Group was $95.6 million, also an increase of 10% over the prior year. While the revenue growth by the Claims Group was also primarily the result of an acquisition completed last year, their bottom line strengthened considerably. Operating profit in 2010 for the Claims Group was $10.0 million, an increase of 21% from a year earlier.

While the bad news may be that profits overall were down, the good news is that the profits were positive, during a time when many firms in the construction industry are losing money. This led to a continued strengthening of our balance sheet, the strongest in the history of our company. We ended the year with cash and cash equivalents of $39.4 million, our total assets were $370.9 million and our stockholders' equity was a record $161.1 million.

Stock Repurchase Program

During 2010, Hill purchased nearly 2.2 million shares of our common stock pursuant to our previously authorized $40 million Stock Repurchase Program at a cost of approximately $9.3 million, or an average price of $4.28 per share. Since the inception of the program in November 2008, we have purchased more than 5.8 million shares of our common stock at a total cost of approximately $24.4 million, or an average price of $4.19 per share.

Looking forward, we expect that we will continue to repurchase shares of our common stock when it is undervalued relative to what we believe our company is worth at the time. With that in mind, Hill’s Board of Directors approved in early 2011 an increase in the Stock Repurchase Program to $60 million and extended the program until the end of 2012.

Key Acquisitions

We operate in two sectors that are highly fragmented with many smaller, regional competitors. We believe that through a strategy of acquiring and integrating the best of these firms, we can accelerate our growth and improve our competitive position. In 2010 and early 2011, we made four acquisitions: the Construction Management Division of dck worldwide, LLC, McLachlan Lister Pty. Ltd., TCM Group, Inc. and Engineering, S.A.

McLachlan Lister, acquired in June 2010, greatly expanded the resources and client base of our Construction Claims Group in the Asia/Pacific region. This 50-employee company provides management consulting services on major construction projects throughout Australia.

The dck Construction Management Division, acquired in July 2010, provides construction management and construction inspection services. The operation had 90 employees working on transportation and building projects in Pennsylvania, Ohio and Florida and strengthened both our geographic presence in those states as well as added to our capabilities in the highway and bridge market.

TCM Group, acquired in November 2010, is a 50-employee firm that provides construction management services throughout Southern California. TCM strengthened our geographic presence and resources in California and added additional capabilities in the transportation and infrastructure market.

During the past five years, Hill International has been one of the most successful firms in the global construction industry.
Engineering S.A., in which we acquired a majority stake in February 2011, is one of the largest project management firms in Brazil. The acquisition of this company, which has nearly 400 employees, gives Hill instant access to the large and fast-growing construction market in Brazil as well as in other countries in Latin America.

**Focus on Business Development**

In 2010, we had a tremendous amount of success from our business development efforts, with Hill being awarded work on some of the largest and most complex construction projects in the world. Many of these new projects are profiled on subsequent pages of this Annual Report. As a result of these and other recent wins, we remain very optimistic concerning our future financial performance. Our total backlog at the end of 2010 was a record $675 million and our 12-month backlog at the end of last year was $275 million. Our strong backlog is a reflection of our successful focus on growing our client base and expanding into new geographic markets and we will continue, as always, to make new business development one of Hill’s highest priorities.

**Risks**

While our company has continued to face challenges from a weak global economy and from heightened political risks (such as we saw recently in Egypt, Libya and elsewhere), we believe that we have managed this risk through diversity. We continued to diversify our geographic presence over the past year with acquisitions in Australia and Brazil as well as in new U.S. locations. And we have attempted to diversify our services with efforts to be a leader in developing new projects. As a global company, we cannot completely avoid risk, but we can manage it through diversification and by seizing opportunities to grow our business in new areas.

**Opportunities**

During 2010, we continued our efforts to broaden our services by building a third operating segment for our company, one focused on providing development services in the real estate and infrastructure markets. We believe these efforts are beginning to bear fruit.

Last year, Hill began work on our first project as a developer: the new Andaz Wailea Resort & Residences in Hawaii. We formed a new joint venture company, HillStone International, a distributor of low-cost yet high-durability housing technologies primarily in developing countries. And we recently formed another joint venture company, National Power & Water Development Ltd., which is seeking to develop power generation and desalinization facilities in Saudi Arabia and elsewhere in the Middle East. These new ventures are at the early stages of development but we are excited by the opportunities they create for the other two segments of our company and the company as a whole.

**2011 and Beyond**

During the past five years, Hill International has been one of the most successful firms in the global construction industry. From 2005 through 2010, we grew our consulting fees an average of 37% per year and we improved our net earnings nearly five-fold. We quadrupled our employee base, as we attracted the best and the brightest professionals in the industry. We won award after award after award for excellence in managing our clients’ construction projects and programs. And we took Hill from a private, family-owned firm to a public company listed on the New York Stock Exchange.

Despite those accomplishments and our solid financial performance in 2010, the performance of our common stock last year continued to significantly underperform the market, up 4% for the year (versus gains of 13% for the S&P 500 and 27% for the Russell 2000). We know, however, that if we continue to perform successfully as a business that sooner or later Wall Street will take notice and value our stock accordingly. We and the rest of our management team are focused on the right issues: maximizing our revenue growth, minimizing our costs, and continuing to exceed our clients’ expectations in every way possible.

We thank you, especially during challenging times like these, for your investment in our company and your trust and confidence in Hill’s board of directors, management team and employees. We will continue to work hard in 2011 and beyond to reward that investment and to ensure that Hill International excels in its mission: to be the very best professional services firm in the world helping our clients minimize the risks inherent in the construction process.

FINANCIAL HIGHLIGHTS

In the five years since becoming a publicly-traded company in 2006, Hill has delivered double-digit revenue growth, stable profitability, a strengthening balance sheet and solid backlog growth. Successful global expansion comes with certain financial risks and challenges. We are proud of our accomplishments in meeting these risks and challenges and we are looking forward to continued success in 2011 and beyond. The following are some highlights of Hill’s financial performance over those five years.

PROJECT MANAGEMENT

Construction is one of the world’s most difficult and challenging endeavors, and big projects carry big risks. Even one mistake in any of the thousands of different tasks on a project can mean big problems and result in serious schedule delays and cost overruns. With the financial stakes so high, it is critical that every step of the project be managed carefully. Hill International is one of the premier firms in the world helping our clients manage their projects and programs more effectively, so that they get finished on time, within budget and with as few claims as possible.

Whether the project is a high-speed rail line or a high-rise office building, we provide our clients with a full-spectrum of services, including program management, project management, construction management, development management, project management oversight, troubled project turnaround, staff augmentation, project labor agreement consulting, and estimating and cost management services.

Having participated in over 5,000 project assignments with a total construction value of over $250 billion, Hill has managed all phases of the construction process, from concept through completion. Engineering News-Record magazine ranked Hill last year as the 8th largest construction management firm and the 10th largest program management firm in the United States.

We are currently managing some of the highest-profile projects in the world, including the rebuilding of the World Trade Center Transportation Hub in New York City, the construction of the new Grand Egyptian Museum near Cairo, the modernization of the U.S. Supreme Court Building in Washington, DC, the construction of the National Library of Latvia in Riga, and the extension of the Los Angeles Metro Gold Line in Southern California. Our portfolio of successful projects gets larger and more impressive each year, as you can see from the following projects that Hill was selected to manage in 2010.

ADNOC Headquarters Complex
Abu Dhabi, UAE
Hill is providing project management and construction supervision services on the new headquarters complex for the Abu Dhabi National Oil Company.

Brooklyn College Theatre Complex
Brooklyn, NY, USA
Hill is the project manager for the City University of New York overseeing construction of its new $69 million Brooklyn College Theatre Complex. The project includes a 64,000-square-foot addition to the existing Whitman Hall and features a 200-seat performance auditorium.

Tucson Medical Center
Tucson, AZ, USA
Hill is providing project management services for the $100 million redevelopment of Tucson Medical Center, the largest hospital in Southern Arizona.

San Francisco Central Subway
San Francisco, CA, USA
Hill is providing program controls and other support services to the San Francisco Municipal Transportation Agency for its entire capital program, including on its $1.6 billion Central Subway project.

Jabal Omar
Makkah, Saudi Arabia
Spread over 57 acres, the Jabal Omar development consists of 37 towers including hospitality, residential, retail, commercial and religious facilities. Hill is providing project management services to the developer of this multi-billion dollar development.
Zoofenster Skyscraper
Berlin, Germany

The Zoofenster Skyscraper will feature a five-star, 242-room Waldorf-Astoria hotel, as well as commercial and residential units. Hill is providing owners’ representative services on the project.

PATH Capital Program
New York, NY, USA

Hill is providing professional planning and project management services on the $4.1 billion capital program of the Port Authority Trans-Hudson (PATH) commuter transit system.

Kuwait Nationwide Hospital Expansion Program
Kuwait City, Kuwait

Hill is providing project management and construction management services to the Kuwait Ministry of Health in connection with a $573 million program to build or expand eight hospitals nationwide.

Wildhorse Casino & Resort
Pendleton, OR, USA

Hill is providing project management services for a 184,000-square-foot expansion to the Wildhorse Casino & Resort, which will include a new 10-story hotel tower.

Calhoun Street Bridge
Trenton, NJ, USA

On behalf of the Delaware River Joint Toll Commission, Hill was the construction manager during the rehabilitation of the historic 125-year-old Calhoun Street Bridge connecting New Jersey and Pennsylvania.

Happyland
Thanh Duc Commune, Ben Luc District, Long An Province, Vietnam

Hill is providing project management services on the $2 billion KT Entertainment City, which includes the $600 million Happyland Theme Park in Vietnam.
Andaz Wailea Resort & Residences  
Maui, HI, USA  
Hill is the developer and project manager working for a joint venture of Hyatt and Starwood Capital in connection with the new Andaz Wailea Resort in Maui, Hawaii. The resort will have 255 rooms, 35 suites, and six four-bedroom villas.

BBVA Bancomer Operating Center  
Mexico City, Mexico  
BBVA Bancomer is the largest financial institution in Mexico. Hill is providing construction management services in connection with the bank’s new 32-story Operating Center in Mexico City.

Tcell Headquarters Building  
Dushanbe, Tajikistan  
The 12-story Tcell headquarters building will be one of only a few high-rises in Dushanbe. Hill is the construction manager on the project.

SR 520 Floating Bridge  
Seattle, WA, USA  
Hill is providing program management services to the Washington State Department of Transportation in connection with the replacement of the SR 520 floating bridge which connects Seattle and Redmond.

CSX National Gateway  
MD, PA, WV and OH, USA  
Hill is providing construction management services to CSX Transportation, Inc. in connection with the $842 million, multi-state National Gateway initiative, which will create a more efficient freight rail route between Mid-Atlantic ports and Midwestern markets.

Global Trade Center  
Warsaw, Poland  
Hill is providing project management, construction management inspection, and auditing services for projects that will include a 484,000-square-foot office complex and 646,000-square-foot retail facility.
Even the most carefully planned construction project can encounter problems, including claims and other disputes. How those claims are handled, however, can be the difference between success and failure. Since our founding in 1976, Hill International has been a world leader in providing construction claims services to our clients (owners, contractors, subcontractors, architects, engineers, law firms, insurance and surety companies, commercial and investment banks and others) on some of the largest and most complex projects and programs in the world.

Our approach to claims resolution is broad-based and relies on the participation of Hill’s multi-disciplined staff of engineers, architects, project and construction managers, cost and damages experts, scheduling and delay experts, legal specialists, contract administrators, accountants and other claims specialists. Such a range of expertise is essential in analyzing the complex liability, causation and damage components of a claim. Hill’s claims experts conduct detailed analyses of the claims, break them down event-by-event and issue-by-issue, to help facilitate evaluation and resolution.

Hill’s array of services includes claims analysis, litigation support, cost and damages assessment, delay and disruption analysis, expert witness testimony, lender advisory services, risk assessments, construction assurance services, adjudication and the Project Neutral®.

Over the past 35 years, Hill has participated in over 25,000 disputes valued in excess of $100 billion. Today, we are the largest construction claims practice with the most experience and the greatest depth of resources and capabilities in the world. The following are just a few of the major consulting assignments that Hill was selected for in 2010.
Bowery Bay Water Pollution Control Plant
Queens, NY, USA
Hill provided construction consulting services on this wastewater facility in New York City.

Kuala Lumpur Monorail
Kuala Lumpur, Malaysia
Hill is providing contract administration and project control services for the expansion of the Kuala Lumpur Monorail, which spans 8.6 kilometers with 11 stations connecting the Central Transport Hub with the “Golden Triangle” area.

The Smith Center for the Performing Arts
Las Vegas, NV, USA
This multi-theatre complex is being considered Las Vegas’ premier performing arts venue. It will offer a blend of performances by local arts groups as well as first-run touring attractions. Hill is providing consulting services during its construction.

Changuinola Dam
Changuinola, Panama
Hill provided construction consulting services during construction of this $375 million hydroelectric facility in Central America.
CONSTRUCTION CLAIMS

Integral Energy Capital Program
New South Wales, Australia
Integral Energy is a state-owned energy corporation that distributes electricity to over 840,000 customers on the eastern seaboard of Australia. Hill was engaged to help Integral Energy develop its capability to deliver a $4.2 billion capital program that requires them to implement a ‘step change’ and nearly double its delivery capability.

Cosumnes Power Plant
Sacramento, CA, USA
Hill assisted the Sacramento Municipal Utilities District with the successful award of a $55.2 million judgment relating to a combined cycle power plant, the fourth largest construction judgment in California last year.

Logan International Airport
Boston, MA, USA
Hill is providing claims avoidance support services, contact document review and consulting services for Logan Airport’s $450 million CONRAC facility and related improvements.

Mumbai Monorail
Mumbai, India
Once complete, the Mumbai Monorail will be the first monorail in India. Hill is providing construction consulting services on the project.

Comanche Station
Pueblo, CO, USA
Hill provided construction consulting services on Xcel Energy’s first new coal-fired electric generating unit in more than 30 years.
CLIENT TESTIMONIALS

The greatest foundation for the future success of a professional services firm is consistently exceeding the expectations of its clients. Our world-class, hard-working professionals performed time and time again for our clients last year. Here are just a few of the accolades received from our clients during 2010 regarding our performance on their behalf.

“Hospital construction projects have complex M-E-P systems and construction requirements and require more diligence and expertise than many other types of construction. The Hill consultants were very professional and motivated, and they possessed a wide variety of skill sets.”

Mike Smith
Director of Facility Planning
The Methodist Hospital of Sugarland (TX)

“Hill’s technical expertise, attention to detail, and ability to work with the Owner and General Contractor were key components in delivering this successful project.”

Paul Witherspoon
Project Manager
U.S. General Services Administration

“This team went in harm’s way on a daily basis to create a solid program under the most difficult pressures I have experienced in my 45-year career in the military and on the outside. I am firmly convinced that the Stanley Baker Hill (SBH) team has been an invaluable resource to our country, to Iraq and to the U.S. Army Corps of Engineers during that time span that they have all worked together on the Iraq Reconstruction Program.”

Adm. David J. Nash (USN-Ret.)
Former Director
Iraq Project Management Office

“My sincerest thanks go out to all of the individuals at Hill who provided me with the support I needed to be successful on the six grants that I directly administered for NIAID.”

Ambrose “Buck” Lewis
Program Officer
National Institute of Allergy and Infectious Diseases

2010: THE YEAR IN REVIEW

January

1. Shawn L. Pressley, a Hill Vice President, is named by Building Design & Construction magazine to its annual “40 Under 40” list of outstanding young professionals in the architecture, engineering and construction industry.

March

22. The Philadelphia Inquirer names Hill as one of the “Top Workplaces 2010” among companies operating in the Philadelphia metropolitan region. Hill is ranked the 11th best place to work among mid-sized employers (between 150 and 500 employees in the region).

April

29. Irvin E. Richter, Hill's Chairman and CEO, is inducted into the New Jersey Business Hall of Fame.

May

6. Richard Day is selected as Hill's 2009 Project Manager of the Year for his work managing the expansion of Al Fateh University in Libya, and David Merritt is selected as Hill's 2009 Consultant of the Year for his role in helping to resolve claims on some of the biggest and most complex projects in the Middle East.

18. Shawn L. Pressley is named by the Philadelphia Business Journal to its annual “40 Under 40” list of outstanding young business professionals in the Philadelphia area.

June

8. Hill wins two Project Achievement Awards from the Mid-Atlantic Chapter of the Construction Management Association of America (CMAA). The awards are for the Trenton-Morrisville Toll Bridge rehabilitation project, which won in the category of “Best Infrastructure Project Over $20 Million,” and the Woodland Elementary School project, which won in the category of “Best School Project Under $20 Million.”

9. Hill acquires McLachlan Lister Pty. Ltd., a firm that provides management consulting and project management services throughout Australia.

14. Engineering News-Record ranks Hill as the 8th largest construction management firm and the 10th largest program management firm in the U.S.

July

7. Hill acquires the Construction Management Division of dck worldwide, LLC, a group which provides program management, agency construction management and construction inspection services in Pennsylvania, Ohio and Florida.

August

19. Hill receives an award for its work on the South Bonnyview Road Widening project, which was named 2010 Project of the Year by the Sacramento Chapter of the American Public Works Association (APWA) in the category of “Transportation Projects from $10-$50 Million.”

October

28. The Zweig Letter ranks Hill as the 10th fastest-growing company among architecture, engineering and environmental consulting firms in the United States and Canada.

November

1. Building magazine names Hill to its first annual Good Employer Guide, which ranks the top five firms in the United Kingdom in each of the categories of architects, engineers, consultants and contractors. Hill was ranked No. 3 in the category of consultants.

10. Hill acquires TCM Group, Inc., a firm that provides construction management services on infrastructure projects throughout Southern California.

15. NJBIZ magazine ranks Hill as the third fastest-growing company in New Jersey.

December

1. Two of Hill’s projects are recognized as among the “Best of 2010” by New York Construction magazine. The projects are the Queens Theater-in-the-Park and the Kupferberg Holocaust Resource Center at Queens Community College.

16. Hill is recognized by the Philadelphia Chapter of the Women’s Transportation Seminar as “Employer of the Year.”
Mission Statement

Hill International’s mission is to be the very best professional services firm in the world helping our clients minimize the risks inherent in the construction process.

Corporate Summary

For more than 35 years, public- and private-sector clients worldwide have selected Hill International (NYSE:HIL) as construction consultants on their most complex projects. Each of our clients has unique needs and goals, yet they choose Hill because they need experts who can prevent problems, minimize risks and eliminate surprises — they need a firm they can trust who will deliver results.

Meeting our clients’ diverse needs in managing construction risk and exceeding their highest expectations is our goal at Hill. We accomplish this objective by providing a broad range of project management, construction claims and consulting services that support our clients during every phase of a project, from concept through completion. With 3,000 employees in 100 offices in 30 countries around the world, Hill has the experience and the expertise to help our clients deliver their projects on time, within budget and with the highest quality possible.
