CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often include words such as “anticipates,” “estimates,” “expects,” “projects,” “intends,” “plans,” “believes” and words and terms of similar substance in connection with discussions of future operating or financial performance. Examples of forward-looking statements in this report include, but are not limited to, statements regarding management’s expectation that past due accounts receivable from Oman will be collected in the third quarter.

The Company’s forward-looking statements are based on management’s current expectations and assumptions regarding the Company’s business and performance, the economy and other future conditions and forecasts of future events, circumstances and results. As with any projection or forecast, forward-looking statements are inherently susceptible to uncertainty and changes in circumstances. The Company’s actual results may vary materially from those expressed or implied in its forward-looking statements.

Important factors that could cause our actual results, performance and achievements, or industry results to differ materially from estimates or projections contained in our forward-looking statements include:

- The risks set forth in Item 1A, “Risk Factors,” of our most recent Annual Report on Form 10-K;
- Modifications and termination of client contracts;
- Control and operational issues pertaining to business activities that we conduct pursuant to joint ventures with other parties;
- Difficulties we may incur in implementing our acquisition strategy;
- The need to retain and recruit key technical and management personnel; and
- Unexpected adjustments and cancellations related to our backlog.

Other factors that may affect our businesses, financial position or results of operations include:

- Unexpected further delays in collections from clients located in the Middle East;
- Special risks of our ability to obtain debt financing or otherwise raise capital to meet required working capital needs and to support potential future acquisition activities;
- Special risks of international operations, including uncertain political and economic environments, acts of terrorism or war, potential incompatibilities with foreign joint venture partners, foreign currency fluctuations, civil disturbances and labor issues; and
- Special risks of contracts with governmental entities, including the failure of applicable governing authorities to take necessary actions to secure or maintain funding for particular projects with us, the unilateral termination of contracts by the government and reimbursement obligations to the government for funds previously received.

We assume no obligation to update or revise any forward-looking statements.

**HILL INTERNATIONAL, INC. AND SUBSIDIARIES**  
**Notes to Consolidated Financial Statements**  
**(Unaudited)**

**Note 1 - The Company**

Hill International, Inc. (“Hill” or the “Company”) is a professional services firm that provides program management, project management, construction management, construction claims and other consulting services primarily to the buildings, transportation, environmental, energy and industrial markets worldwide. Hill’s clients include the U.S. federal government, U.S. state and local governments, foreign governments and the private sector. The Company is organized into two key operating divisions: the Project Management Group and the Construction Claims Group.

**Note 2 — Basis of Presentation**

The accompanying unaudited interim consolidated financial statements were prepared in accordance with the rules and regulations of the Securities and Exchange Commission pertaining to reports on Form 10-Q and should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States (“GAAP”) for complete financial statements. In the opinion of management, these statements include all adjustments (consisting only of normal, recurring adjustments) necessary for a fair presentation of the consolidated financial statements. The consolidated financial statements include the accounts of Hill and its wholly- and majority-owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The interim operating results are not necessarily indicative of the results for a full year.

**Note 3 — Liquidity**

The amount of CFR attributable to operations in the Middle East and Africa has grown from approximately 32% in 2011 to approximately 51% of total consolidated CFR in the first half of 2016. There has been significant political upheaval and civil unrest in this region during this period. The Company has recently experienced a slowdown in its collections from its clients in the Middle East primarily due to the recent drop in oil prices. This has put a considerable strain on the Company’s liquidity. As a result, the Company has had to rely heavily on debt and equity transactions to fund its operations. See Note 4 for a further discussion of issues related to our liquidity.

**Note 4 — Accounts Receivable**

The components of accounts receivable are as follows (in thousands):

	June 30, 2016	December 31, 2015
Billed	\$ 257,032	\$ 267,592
Retainage, current portion	3,904	13,660
Unbilled	37,825	25,913
	298,761	307,165
Allowance for doubtful accounts	(64,901)	(63,748)
	<u>\$ 233,860</u>	<u>\$ 243,417</u>

[Table of Contents](#)

In 2012, the Company commenced operations on the Muscat International Airport (the “Oman Airport”) project with the Ministry of Transportation and Communications (the “MOTC”) in Oman. The original contract term expired in November 2014. In October 2014, the Company applied for a twelve-month extension of time amendment (the “first extension”) which was subsequently approved in March 2016, and the Company continued to work on the Oman Airport project. The Company began to experience some delays in payment during the second quarter of 2015 when MOTC commenced its formal review and certification of the Company’s invoices. In December 2015, the Company began discussions with the MOTC on a second extension of time amendment, which was approved in March 2016, and has since commenced additional work, which management expects to last approximately 18 months. When the MOTC resumed payments in 2016, the Company received approximately \$15,000,000 in March, approximately \$1,800,000 in April and approximately \$14,100,000 in June. At June 30, 2016, accounts receivable from Oman totaled approximately \$31,400,000 of which approximately \$15,200,000 was past due. Management expects to collect approximately \$14,300,000 against the past-due accounts receivable in the third quarter of 2016.

Any additional delays in payments from MOTC or other foreign governments may have a negative impact on the Company’s liquidity, financial covenants, financial positions and results of operations.

**Note 5 — Intangible Assets**

The following table summarizes the Company’s acquired intangible assets (in thousands):

	<b>June 30, 2016</b>		<b>December 31, 2015</b>	
	<b>Gross Carrying Amount</b>	<b>Accumulated Amortization</b>	<b>Gross Carrying Amount</b>	<b>Accumulated Amortization</b>
Client relationships	\$ 34,145	\$ 23,329	\$ 34,891	22,668
Acquired contract rights	2,342	1,916	12,256	11,287

	<u>\$ 102,629</u>	<u>\$ 112,457</u>

[Table of Contents](#)

**Note 8 — Notes Payable and Long-Term Debt**

Outstanding debt obligations are as follows (in thousands):

	June 30, 2016	December 31, 2015
Term Loan Facility	\$ 112,895	\$ 112,906
Domestic Revolving Credit Facility	17,000	17,500
International Revolving Credit Facility	11,735	10,715
Borrowings under revolving credit facilities with a consortium of banks in Spain	3,033	3,013
Borrowing from Philadelphia Industrial Development Corporation	683	710
Other notes payable	—	139
	<u>145,346</u>	<u>144,983</u>
Less current maturities	4,238	4,357
Notes payable and long-term debt, net of current maturities	<u>\$ 141,108</u>	<u>\$ 140,626</u>

The Company and its subsidiary Hill International N.V. (the “Subsidiary”) are parties to a credit agreement with Société Générale (the “Agent”), TD Bank, N.A. and HSBC Bank USA, N.A. (collectively, the “U.S. Lenders”) consisting of a term loan facility of \$120,000,000 (the “Term Loan Facility”) and a \$30,000,000 U.S. dollar-denominated facility available to the Company (the “U.S. Revolver,” together with the Term Loan Facility, the “U.S. Credit Facilities”) and a credit agreement with the Agent (the “International Lender”) providing a €11,765,000 (\$15,000,000 at closing and \$13,086,000 at June 30, 2016) credit facility which is available to the Subsidiary (the “International Revolver” and together with the U.S. Revolver, the “Revolving Credit Facilities” and, together with the U.S. Credit Facilities, the “Secured Credit Facilities”). The U.S. Revolver and the International Revolver include sub-limits for letters of credit amounting to \$25,000,000 and \$10,000,000, respectively.

The Secured Credit Facilities contain customary default provisions, representations and warranties, and affirmative and negative covenants, and require the Company to comply with certain financial and reporting covenants. The financial covenants consist of a Maximum Consolidated Net Leverage Ratio and an Excess Account Concentration requirement. The Consolidated Net Leverage Ratio is the ratio of consolidated total debt (minus cash of up to \$10,000,000 held in the aggregate) to consolidated earnings before interest, taxes, depreciation, amortization, share-based compensation and other non-cash charges for the trailing twelve months. The Excess Account Concentration covenant permits the U. S. Lenders and the International Lender to increase the interest rates by 2.0% if, as of the last day of any fiscal quarter, either (a) the total of accounts receivable from all clients within any country not listed as a Permitted Country as defined in the Secured Credit Facilities (other than the United Arab Emirates) that are more than 120 days old (relative to the invoice date) constitute more than 10% of the total outstanding accounts receivable or (b) the total of accounts receivable from all clients located in the United Arab Emirates that are more than 120 days old (relative to the invoice date) constitute more than 14% of the total outstanding accounts receivable. The interest rate will be reset as soon as the accounts receivable over 120 days decline below the 10% or 14% levels. At June 30, 2016, the related accounts receivable did not exceed the limits described above.

The following compares the Maximum Consolidated Net Leverage Ratio to the actual consolidated net leverage ratio:

Period Ended	Not to exceed	Actual
June 30, 2016	3.00 to 1.00	2.86 to 1.00

The U.S. Credit Facilities are guaranteed by certain U.S. subsidiaries of the Company, and the International Revolver is guaranteed by the Company and certain of the Company’s U.S. and non-U.S. subsidiaries.

[Table of Contents](#)

**Term Loan Facility**

The interest rate on the Term Loan Facility will be, at the Company's option, either:

- the London Inter-Bank Offered Rate ("LIBOR") for the relevant interest period plus 6.75% per annum, provided that such LIBOR shall not be lower than 1.00% per annum; or
- the Base Rate (as described below) plus 5.75% per annum.

The "Base Rate" is a per annum rate equal to the highest of (A) the prime rate, (B) the federal funds effective rate plus 0.50%, or (C) the LIBOR for an interest period of one month plus 1.0% per annum. Upon a default, the applicable rate of interest under the Secured Credit Facilities may increase by 2.0%. The LIBOR on the Term Loan Facilities (including when determining the Base Rate) shall in no event be less than 1.0% per annum.

At June 30, 2016, the interest rate on the Term Loan was 7.75%.

The Company has the right to prepay the Term Loan Facility in full or in part at any time without premium or penalty. The Company is required to make mandatory prepayments of the Term Loan Facility, without premium or penalty, (i) with net proceeds of any issuance or incurrence of indebtedness (other than that permitted under the Term Loan Facility) by the Company after the closing, (ii) with net proceeds from certain asset sales outside the ordinary course of business, and (iii) with 50% of the excess cash flow (as defined in the agreement) for each fiscal year of the Borrowers commencing with the first full fiscal year ending after closing (which percentage would be reduced to 25% if the Consolidated Net Leverage Ratio is equal to or less than 2.25 to 1.00 or reduced to 0% if the Consolidated Net Leverage Ratio is equal to or less than 1.50 to 1.00).

The Term Loan Facility is generally secured by a first-priority security interest in substantially all assets of the Company and certain of the Company's U.S. subsidiaries other than accounts receivable, cash proceeds thereof and certain bank accounts, as to which the Term Loan Facility is secured by a second-priority security interest.

The Term Loan Facility has a term of six years, requires repayment of 0.25% of the original principal amount on a quarterly basis through September 30, 2020, the maturity date. Any amounts repaid on the Term Loan Facility will not be available to be re-borrowed.

The Company incurred fees and expenses related to the Term Loan Facility aggregating \$7,066,000 which have been deferred. The deferred fees are being amortized on a straight-line basis, which approximates the effective interest method, to interest and related financing fees, net over a six-year period which ends on September 30, 2020. Unamortized balances of \$5,005,000 and \$5,594,000 are included as an offset against the Term Loan balances in the consolidated balance sheets at June 30, 2016 and December 31, 2015, respectively.

**Revolving Credit Facilities**

The interest rate on borrowings under the U.S. Revolver will be, at the Company's option from time to time, either the LIBOR for the relevant interest period plus 3.75% per annum or the Base Rate plus 2.75% per annum. At June 30, 2016, the interest rate was 6.25%.

The interest rate on borrowings under the International Revolver will be the European Inter-Bank Offered Rate, or "EURIBOR," for the relevant interest period (or at a substitute rate to be determined to the extent EURIBOR is not available) plus 4.00% per annum. At June 30, 2016, the interest rate was 4.00%.

The Company will pay a commitment fee calculated at 0.50% annually on the average daily unused portion of the U.S. Revolver, and the Subsidiary will pay a commitment fee calculated at 0.75% annually on the average daily unused portion of the International Revolver.

## [Table of Contents](#)

The ability to borrow under each of the U.S. Revolver and the International Revolver is subject to a “borrowing base,” calculated using a formula based upon approximately 85% of receivables that meet or satisfy certain criteria (“Eligible Receivables”) and that are subject to a perfected security interest held by either the U.S. Lenders or the International Lender, plus, in the case of the International Revolver only, 10% of Eligible Receivables that are not subject to a perfected security interest held by the International Lender, subject to certain exceptions and restrictions.

The Company or the Subsidiary, as applicable, will be required to make mandatory prepayments under their respective Revolving Credit Facilities to the extent that the aggregate outstanding amount thereunder exceeds the then-applicable borrowing base, which payments will be made without penalty or premium. At June 30, 2016, the domestic borrowing base was \$30,000,000 and the international borrowing base was €11,765,000 (approximately \$13,086,000 at June 30, 2016).

Generally, the obligations of the Company under the U.S. Revolver are secured by a first-priority security interest in the above-referenced accounts receivable, cash proceeds and bank accounts of the Company and certain of the Company’s U.S. subsidiaries, and a second-priority security interest in substantially all other assets of the Company and such subsidiaries. The obligations of the Subsidiary under the International Revolver would generally be secured by a first-priority security interest in substantially all accounts receivable, cash proceeds thereof and certain bank accounts of the Subsidiary and certain of the Company’s non-U.S. subsidiaries, and a second-priority security interest in substantially all other assets of the Company and certain of the Company’s U.S. and non-U.S. subsidiaries.

The Revolving Credit Facilities have a term of five years and require payment of interest only during the term. Under the Revolving Credit Facilities, outstanding loans may be repaid in whole or in part at any time, without premium or penalty, subject to certain customary limitations, and will be available to be re-borrowed from time to time through expiration on September 30, 2019.

The Company incurred fees and expenses related to the Revolving Credit Facilities aggregating \$3,000,000 which has been deferred. The deferred fees are being amortized on a straight-line basis, which approximates the effective interest method, to interest expense and related financing fees, net over a five-year period which ends on September 30, 2019. Unamortized balances of \$1,950,000 and \$2,250,000 are included in other assets in the consolidated balance sheet at June 30, 2016 and December 31, 2015, respectively.

At June 30, 2016 the Company had \$8,052,000 of outstanding letters of credit and \$4,948,000 of available borrowing capacity under the U.S. Revolver.

At June 30, 2016, the Company had \$1,201,000 of outstanding letters of credit and \$4,035,000 of available borrowing capacity under the International Revolver and its other foreign credit agreements (See “Other Debt Arrangements” below for more information).

### **Other Debt Arrangements**

In connection with the move of its corporate headquarters to Philadelphia, Pennsylvania, the Company received a loan from the Philadelphia Industrial Development Corporation in the amount of \$750,000 which bears interest at 2.75%, is repayable in 144 equal monthly installments of \$6,121 and matures on May 1, 2027.

The Company’s subsidiary, Hill International (Spain) S.A. (“Hill Spain”), maintains a revolving credit facility with six banks (the “Financing Entities”) in Spain which initially provided for total borrowings of up to €5,640,000 with interest at 6.50% on outstanding borrowings. At December 31, 2015, total availability under this facility was reduced to 50.0% of the initial limit. At June 30, 2016, the total facility was approximately €2,670,000 (approximately \$2,970,000) and borrowings outstanding were €2,652,000 (approximately \$2,950,000). The amount being financed (“Credit Contracts”) by each Financing Entity is between €189,000 (approximately \$211,000) and €769,000 (approximately \$855,000). To guarantee Hill Spain’s obligations resulting from the Credit Contracts, Hill Spain provided a guarantee in favor of each one of the Financing Entities, which, additionally, and solely in the case of unremedied failure to make payment, and at the request of each of the Financing Entities, shall grant a first ranking pledge over a given percentage of corporate shares of Hill International Brasil Participacoes Ltda. for the principal, interest, fees, expenses or any other amount owed by

[Table of Contents](#)

virtue of the Credit Contracts, coinciding with the percentage of credit of each Financing Entity with respect to the total outstanding borrowings under this facility. The facility expires on December 17, 2016.

Hill Spain also maintains an Instituto de Credito Oficial (“ICO”) loan with Bankia Bank in Spain for €75,000 (approximately \$83,000) at June 30, 2016. The availability is reduced by €15,000 on a quarterly basis. At June 30, 2016, total borrowings outstanding were €75,000 (approximately \$83,000). The interest rate at June 30, 2016 was 6.50%. The ICO loan expires on August 10, 2017.

The Company maintains a credit facility with the National Bank of Abu Dhabi which provides for total borrowings of up to AED 11,500,000 (approximately \$3,131,000 at June 30, 2016) collateralized by certain overseas receivables. There were no borrowings outstanding as of June 30, 2016. The interest rate is the one-month Emirate Interbank Offered Rate plus 3.50% (or 4.91% at June 30, 2016) but no less than 5.50%. This facility also allows for up to AED 200,000,000 (approximately \$54,452,000 at June 30, 2016) of which AED 108,190,000 (approximately \$29,456,000) was outstanding at June 30, 2016. The credit facility is subject to periodic review by the bank.

Engineering S.A. maintains four unsecured revolving credit facilities with two banks in Brazil aggregating 2,380,000 Brazilian Reais (BRL) (approximately \$734,000 at June 30, 2016), with a weighted average interest rate of 5.02% per month at June 30, 2016. There were no borrowings outstanding on any of these facilities which are renewed automatically every three months.

The Company also maintains relationships with other foreign banks for the issuance of letters of credit, letters of guarantee and performance bonds in a variety of foreign currencies. At June 30, 2016, the maximum U.S. dollar equivalent of the commitments was \$89,169,000 of which \$37,975,000 is outstanding.

**Note 9 — Supplemental Cash Flow Information**

The following table provides additional cash flow information (in thousands):

	Six Months Ended June 30,	
	2016	2015
Interest and related financing fees paid	\$ <u>5,924</u>	\$ <u>6,174</u>
Income taxes paid	\$ <u>7,390</u>	\$ <u>1,258</u>
Increase in other current liabilities and decrease in additional paid-in capital related to ESA Put Options	\$ <u>2,670</u>	\$ <u>—</u>
Increase in property and equipment from a tenant improvement allowance related to the relocation of the corporate headquarters	\$ <u>—</u>	\$ <u>3,894</u>
Increase in additional paid in capital from issuance of shares of common stock related to purchase of CPI	\$ <u>—</u>	\$ <u>530</u>
Increase in additional paid in capital from issuance of shares of common stock from cashless exercise of stock options	\$ <u>729</u>	\$ <u>361</u>

**Note 10 — Earnings per Share**

Basic earnings per common share has been computed using the weighted-average number of shares of common stock outstanding during the period. Diluted earnings per common share incorporates the incremental shares issuable upon the assumed exercise of stock options using the treasury stock method, if dilutive. Dilutive stock options increased the average common shares outstanding by approximately 221,000 shares for the three months ended June 30, 2016 and by approximately 98,000 shares for the six months

[Table of Contents](#)

ended June 30, 2016. Options to purchase 2,906,000 shares and 5,631,000 shares were excluded from the calculation of diluted earnings per common share for the three and six months ended June 30, 2016 because they were antidilutive. Dilutive stock options increased the average common shares outstanding by approximately 1,012,000 shares for the three months ended June 30, 2015 and by approximately 581,000 shares for the six months ended June 30, 2015. Options to purchase 3,198,000 shares and 3,871,000 shares were excluded from the calculation of diluted earnings per common share for the three and six months ended June 30, 2015 because they were antidilutive.

**Note 11 — Share-Based Compensation**

At June 30, 2016, the Company had approximately 6,944,000 options outstanding with a weighted average exercise price of \$4.10. During the six months ended June 30, 2016, the Company granted 765,000 options which vest over a five-year period and 10,000 options which vested immediately. The options have a weighted-average exercise price of \$4.30 and a weighted average contractual life of 6.97 years. The aggregate fair value of the options was \$1,075,000 calculated using the Black-Scholes valuation model. The weighted average assumptions used to calculate fair value were: expected life — 4.97 years; volatility — 57.4% and risk-free interest rate — 1.24%. During the first six months of 2016, options for approximately 365,000 shares with a weighted average exercise price of \$2.61 were exercised, options for approximately 1,096,000 shares with a weighted average exercise price of \$6.88 lapsed and options for 82,000 shares with a weighted average exercise price of \$4.24 lapsed.

During the six months ended June 30, 2016, employees purchased approximately 4,000 common shares, for an aggregate purchase price of \$11,000, pursuant to the Company's 2008 Employee Stock Purchase Plan.

The Company recognized share-based compensation expense in selling, general and administrative expenses in the consolidated statement of operations totaling \$599,000 and \$700,000 for the three months ended June 30, 2016 and 2015, respectively, and \$1,257,000 and \$1,461,000 for the six months ended June 30, 2016 and 2015, respectively.

**Note 12 — Stockholders' Equity**

The following table summarizes the changes in stockholders' equity during the six months ended June 30, 2016 (in thousands):

	Total	Hill International, Inc. Stockholders	Noncontrolling Interests
Stockholders' equity, December 31, 2015	\$ 118,039	\$ 113,969	\$ 4,070
Net earnings	2,931	2,940	(9)
Other comprehensive (loss)	437	1,783	(1,346)
Comprehensive earnings (loss)	3,368	4,723	(1,355)
Additional paid in capital	2,202	2,202	—
Acquisition of treasury stock	(729)	(729)	—
Adjustment related to ESA Put Options	(2,670)	(2,670)	—
Dividends paid to noncontrolling interest	(111)	—	(111)
Stockholders' equity, June 30, 2016	<u>\$ 120,099</u>	<u>\$ 117,495</u>	<u>\$ 2,604</u>

During March 2016, certain officers exercised an aggregate of 297,489 options with an exercise price of \$2.45 through the Company on a cashless basis. The Company withheld 215,158 shares as payment for the options and placed those shares in treasury. The officers received a total of 112,331 shares from this transaction.

During the six months ended June 30, 2016, the Company received \$204,000 in cash from the exercise of stock options.

**Note 13 — Income Taxes**

The effective tax rates for the three months ended June 30, 2016 and 2015 were 69.6% and 36.3%, respectively, and 58.1% and 41.2% for the six months ended June 30, 2016 and 2015, respectively. The Company's effective tax rate

[Table of Contents](#)

represents the Company's estimated tax rate for the year based on projected income and mix of income among the various foreign tax jurisdictions, adjusted for discrete transactions occurring during the period. The Company recognized an income tax expense (benefit) related to an increase in the reserve for uncertain tax positions totaling \$0 and \$245,000 for the three months ended June 30, 2016 and 2015 and \$(14,000) and \$ 245,000 for the six months ended June 30, 2016 and 2015. In addition, the Company recognized an income tax expense (benefit) resulting from adjustments to agree the prior year's book amounts to the actual amounts per the tax returns totaling \$535,000 and \$(85,000) for the three months ended June 30, 2016 and 2015, respectively, and \$535,000 and \$0 for the six months ended June 30, 2016 and 2015, respectively. The Company's effective tax rate in both years is higher than it otherwise would be primarily as a result of not recording an income tax benefit related to the U.S. net operating loss and various foreign withholding taxes.

The components of earnings (loss) before income taxes and the related income tax expense by United States and foreign jurisdictions were as follows (in thousands):

	Three Months Ended June 30, 2016			Three Months Ended June 30, 2015		
	U.S.	Foreign	Total	U.S.	Foreign	Total
Earnings (loss) before income taxes	\$ (4,962)	\$ 9,817	\$ 4,855	\$ (6,191)	\$ 13,312	\$ 7,121
Income tax expense, net	\$ —	\$ 3,378	\$ 3,378	\$ —	\$ 2,586	\$ 2,586

  

	Six Months Ended June 30, 2016			Six Months Ended June 30, 2015		
	U.S.	Foreign	Total	U.S.	Foreign	Total
Earnings (loss) before income taxes	\$ (13,488)	\$ 20,478	\$ 6,990	\$ (16,631)	\$ 25,784	\$ 9,153
Income tax expense, net	\$ —	\$ 4,059	\$ 4,059	\$ —	\$ 3,770	\$ 3,770

The reserve for uncertain tax positions amounted to \$939,000 and \$996,000 at June 30, 2016 and December 31, 2015, respectively, and is included in "Other liabilities" in the consolidated balance sheets at those dates.

The Company's policy is to record income tax related interest and penalties in income tax expense. At both June 30, 2016 and December 31, 2015, potential interest and penalties related to uncertain tax positions amounting to \$500,000 was included in the balance above.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities and projected future taxable income in making this assessment. Management evaluates the need for valuation allowances on the deferred tax assets according to the provisions of ASC740, *Income Taxes*. They consider both positive and negative evidence. In making this determination, management assesses all of the evidence available at the time including recent earnings, internally-prepared income projections, and historical financial performance.

**Note 14 — Business Segment Information**

The Company's business segments reflect how executive management makes resource decisions and assesses its performance. The Company bases these decisions on the type of services provided (Project Management and Construction Claims) and secondarily by their geography (U.S./Canada, Latin America, Europe, the Middle East, Africa and Asia/Pacific).

The Project Management business segment provides extensive construction and project management services to construction owners worldwide. Such services include program management, project management, construction

[Table of Contents](#)

management, project management oversight, troubled project turnaround, staff augmentation, project labor agreement consulting, commissioning, estimating and cost management, labor compliance and facilities management services.

The Construction Claims business segment provides such services as claims consulting, management consulting, litigation support, expert witness testimony, cost/damages assessment, delay/disruption analysis, adjudication, lender advisory, risk management, forensic accounting, fraud investigation, Project Neutral and international arbitration services to clients worldwide.

The Company evaluates the performance of its segments primarily on operating profit before corporate overhead allocations and income taxes.

The following tables reflect the required disclosures for the Company's reportable segments (in thousands):

**Note 15 — Client Concentrations**

The Company had no clients that accounted for 10% or more of consulting fees during the three- and six-month periods ended June 30, 2016 and 2015, respectively.

The Company had no clients that accounted for 10% or more of total revenue during the three and six months ended June 30, 2016 and 2015, respectively.

## [Table of Contents](#)

The Company has numerous contracts with U.S. federal government agencies that collectively accounted for 1.6% of total revenue during each of the three-month periods ended June 30, 2016 and 2015 and 1.6% and 1.7% of total revenue during the six-month periods ended June 30, 2016 and 2015, respectively.

The Company has numerous contracts with U.S. federal government agencies that collectively accounted for 1.5% and 1.4% of consulting fee revenue during the three-month periods ended June 30, 2016 and 2015 and 1.6% and 1.5% of consulting revenue during the six-month periods ended June 30, 2016 and 2015, respectively.

### **Note 16 — Commitments and Contingencies**

#### ***General Litigation***

From time to time, the Company is a defendant or plaintiff in various legal actions which arise in the normal course of business. As such the Company is required to assess the likelihood of any adverse outcomes to these matters as well as potential ranges of probable losses. A determination of the amount of the provision required for these commitments and contingencies, if any, which would be charged to earnings, is made after careful analysis of each matter. The provision may change in the future due to new developments or changes in circumstances. Changes in the provision could increase or decrease the Company's earnings in the period the changes are made. It is the opinion of management, after consultation with legal counsel, that the ultimate resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or cash flows.

#### ***Acquisition-Related Contingencies***

As of June 30, 2016, our subsidiary, Hill International (Spain), S.A. ("Hill Spain"), owned an indirect 91% interest in Engineering S.A. ("ESA"), a firm located in Brazil. ESA's shareholders entered into an agreement whereby the minority shareholders have a right to compel ("ESA Put Option") Hill Spain to purchase any or all of their shares during the period from February 28, 2014 to February 28, 2021. Hill Spain also has the right to compel ("ESA Call Option") the minority shareholders to sell any or all of their shares during the same time period. The purchase price for such shares shall be seven times the earnings before interest and taxes for ESA's most recently ended fiscal year, net of any financial debt plus excess cash multiplied by a percentage which the shares to be purchased bear to the total number of shares outstanding at the time of purchase, but in the event the ESA Call Option is exercised by Hill Spain, the purchase price shall be increased by five percent. The ESA Put Option and the ESA Call Option must be made within three months after the audited financial statements of ESA have been completed. On June 17, 2016, the three remaining minority shareholders exercised their ESA Put Option claiming a value of BRL 8,656,000 (approximately \$2,670,000 at June 30, 2016). The Company accrued the liability which is included in other current liabilities and as an adjustment to additional paid-in capital in the consolidated balance sheet at June 30, 2016. The amount is subject to negotiation and any difference will be recorded upon completion of the transaction.

On October 31, 2014, our subsidiary Hill International (UK) Ltd. acquired all of the outstanding common stock of Angus Octan Scotland Ltd., which included its subsidiary companies Cadogan Consultants Ltd., Cadogan Consult Ltd. and Cadogan International Ltd. (collectively, "Cadogans"). The sellers of Cadogans are entitled to an earn-out based upon the average earnings before interest, taxes, depreciation and amortization for the two-year period ending on October 31, 2016 (which amount shall not be less than £0 or more than £200,000). The Company accrued the potential additional consideration of £200,000 (\$269,000) which is included in other current liabilities in the consolidated balance sheet at June 30, 2016.

Two of the selling shareholders of Cadogans may receive an earn-out in annual installments of up to £100,000 (\$135,000 at June 30, 2016), which will be charged to earnings, provided that Cadogans' EBITDA for each of the years ending October 31, 2016, 2017, 2018 and 2019 is greater than £396,000 (\$533,000).

In connection with the acquisition of IMS Proje Yonetimi ve Danismanlik A.S. ("IMS") on April 15, 2015, the Company had accrued approximately TRY 6,100,000 for a Holdback Purchase Price of TRY 4,400,000 plus a potential Additional Purchase Price of (i) TRY 1,700,000 if earnings before interest, income taxes, depreciation and amortization for the twelve month period subsequent to the closing date ("EBITDA") exceeds TRY 3,500,000 or (ii) TRY 1,500,000 if

[Table of Contents](#)

EBITDA is less than TRY 3,500,000 but not less than TRY 3,200,000. During the six months ended June 30, 2016, the Company paid approximately TRY 2,909,000 (approximately \$1,032,000) against the Holdback Purchase Price. The balance of the Holdback Purchase price of approximately TRY 1,491,000 (approximately \$529,000) is included in other current liabilities in the consolidated balance sheet at June 30, 2016. IMS's EBITDA through the one-year anniversary of the acquisition date was not sufficient to earn any of the Additional Purchase Price and the liability was eliminated by a credit of approximately \$673,000 to selling, general and administrative expenses for the three- and six-month periods ended June 30, 2016.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

**Overview**

Our revenue consists of two components: consulting fee revenue ("CFR") and reimbursable expenses. Reimbursable expenses are reflected in equal amounts in both total revenue and total direct expenses. Because these pass-through revenue/costs are subject to significant fluctuation from year to year, we measure the performance of many of our key operating metrics as a percentage of CFR, as we believe that this is a better and more consistent measure of operating performance than total revenue.

CFR decreased \$7,124,000, or 4.5%, to \$152,614,000 during the second quarter of 2016 from \$159,738,000 during the second quarter of 2015. CFR for the Project Management segment decreased \$6,338,000 principally due to decreases in the Middle East, partially offset by increases in the United States. CFR for the Construction Claims segment decreased by \$786,000, or 1.8% due primarily to decreases in the United States and Latin America.

CFR decreased \$960,000, or 0.3%, to \$309,919,000 during the six months ended June 30, 2016 from \$310,879,000 during the six months ended June 30, 2015. CFR for the Project Management segment decreased \$1,876,000 principally due to decreases in the Middle East, partially offset by increases in the United States. CFR for the Construction Claims segment increased by \$916,000, or 1.1% due primarily to increases in the United Kingdom.

Net earnings attributable to Hill were \$1,490,000 during the second quarter of 2016, a decrease of 66.1%, from \$4,395,000 during the second quarter of 2015. The decrease was due to a lower volume of work and declining margins in the Middle East.

Diluted earnings per common share were \$0.03 during the second quarter of 2016 based upon 51,948,000 diluted common shares outstanding compared to diluted earnings per common share of \$0.09 during the second quarter of 2015 based upon 51,495,000 diluted common shares outstanding.

Net earnings attributable to Hill were \$2,940,000 during the six months ended June 30, 2016, a decrease of 42.3%, from \$5,097,000 during the six months ended June 30, 2015. The decrease was due to a lower volume of work and declining margins in the Middle East.

Diluted earnings per common share were \$0.06 during the six months ended June 30, 2016 based upon 51,777,000 diluted common shares outstanding compared to diluted earnings per common share of \$0.10 during the six months ended June 30, 2015 based upon 51,010,000 diluted common shares outstanding.

Despite the recent drop in global oil prices and its negative impact on the construction industry particularly in the Middle East, we remain optimistic about maintaining our current growth strategy to pursue new business development opportunities, continue to take advantage of organic growth opportunities, continue to pursue acquisitions and strengthen our professional resources. In addition, we completed a review of our global overhead cost structure in 2015. The areas most affected were personnel and related benefits and expenses. We believe these efforts combined with other strategic initiatives should continue to improve our profitability and shareholder value.

***Critical Accounting Policies***

We operate through two segments: the Project Management Group and the Construction Claims Group. Reimbursable expenses are reflected in equal amounts in both total revenue and total direct expenses. Because these revenues/costs are subject to significant fluctuations from year to year, we measure the performance of many of our key operating metrics as a percentage of consulting fee revenue ("CFR"), as we believe that this is a better and more consistent measure of operating performance than total revenue.

The Company's interim financial statements were prepared in accordance with United States generally accepted accounting principles, which require management to make subjective decisions, assessments and estimates about the effect of matters that are inherently uncertain. As the number of variables and assumptions affecting the judgment increases such judgments become even more subjective. While management believes its assumptions are reasonable and appropriate, actual results may be materially different than estimated. The critical accounting estimates and assumptions have not materially changed from those identified in the Company's 2015 Annual Report.

**Results of Operations**

**Three Months Ended June 30, 2016 Compared to  
Three Months Ended June 30, 2015**

**Consulting Fee Revenue (“CFR”) (dollars in thousands)**

	Three Months Ended June 30,				Change	
	2016		2015			
Project Management	\$ 110,126	72.2%	\$ 116,464	72.9%	\$ (6,338)	(5.4)%
Construction Claims	42,488	27.8	43,274	27.1	(786)	(1.8)
<b>Total</b>	<b>\$ 152,614</b>	<b>100.0%</b>	<b>\$ 159,738</b>	<b>100.0%</b>	<b>\$ (7,124)</b>	<b>(4.5)%</b>

The decrease in CFR was primarily due to decreased work in the Middle East.

The decrease in Project Management CFR included an \$8,541,000 decrease in international projects and an increase of \$2,203,000 in domestic projects. The decrease in international Project Management CFR was due primarily to decreases throughout the Middle East. The increase in domestic Project Management CFR included increases primarily in the Northeast and Southern Regions.

The decrease in Construction Claims CFR was primarily due to decreases in the United States and Latin America, partially offset by increases in Europe.

**Reimbursable Expenses (dollars in thousands)**

	Three Months Ended June 30,				Change	
	2016		2015			
Project Management	\$ 21,719	94.5%	\$ 20,588	94.0%	\$ 1,131	5.5%
Construction Claims	1,256	5.5	1,322	6.0	(66)	(5.0)
<b>Total</b>	<b>\$ 22,975</b>	<b>100.0%</b>	<b>\$ 21,910</b>	<b>100.0%</b>	<b>\$ 1,065</b>	<b>4.9%</b>

Reimbursable expenses consist of amounts paid to subcontractors and other third parties, and travel and other job-related expenses that are contractually reimbursable from clients. These items are reflected as separate line items in both our revenue and cost of services captions in our consolidated statements of earnings. The increase in Project Management reimbursable expense is primarily due to higher use of subcontractors in our Northeast and Mid-Atlantic regions.

**Cost of Services (dollars in thousands)**

	Three Months Ended June 30,						Change	
	2016		2015					
		% of CFR		% of CFR				
Project Management	\$ 70,635	78.7%	\$ 73,375	79.4%	\$ (2,740)	63.0%	(3.7)%	
Construction Claims	19,113	21.3	19,025	20.6	88	44.0	0.5	
<b>Total</b>	<b>\$ 89,748</b>	<b>100.0%</b>	<b>\$ 92,400</b>	<b>100.0%</b>	<b>\$ (2,652)</b>	<b>57.8%</b>	<b>(2.9)%</b>	

Cost of services consists of labor expenses for time charged directly to contracts and non-reimbursable job-related travel and out-of-pocket expenses. The decrease in Project Management cost of services is primarily due to decreases in the Middle East due to staffing reductions in line with lower CFR, partially offset by increases in the United States in support of increased work.

[Table of Contents](#)

**Gross Profit (dollars in thousands)**

	Three Months Ended June 30,						Change	
	2016		2015					
		% of CFR			% of CFR			
Project Management	\$ 39,491	62.8%	35.9%	\$ 43,089	64.0%	37.0%	\$ (3,598)	(8.4)%
Construction Claims	23,375	37.2	55.0	24,249	36.0	56.0	(874)	(3.6)
Total	\$ 62,866	100.0%	41.2%	\$ 67,338	100.0%	42.2%	\$ (4,472)	(6.6)%

The decrease in Project Management gross profit included a decrease of \$4,163,000 from international operations, primarily as a result of a lower volume of work in the Middle East which has historically had higher margins. This was partially offset by an increase of \$565,000 in domestic operations primarily the Northeast and Southern regions.

The decrease in Construction Claims gross profit was driven by decreases in the United States partially offset by increases in Europe.

**Selling, General and Administrative (“SG&A”) Expenses (dollars in thousands)**

	Three Months Ended June 30,				Change	
	2016		2015			
		% of CFR		% of CFR		
SG&A Expenses	\$ 54,642	35.8%	\$ 56,652	35.5%	\$ (2,010)	(3.5)%

The decrease in selling, general and administrative expenses included the following:

- A decrease in legal fees of \$1,432,000 due primarily to \$1,048,000 expended in 2015 for an employee labor dispute;
- A decrease in amortization expense of \$459,000 for intangible assets that became fully amortized in 2015;
- A reversal of a \$673,000 earn-out liability for IMS which was not earned as of the twelve month measurement date;
- A decrease of \$994,000 in indirect labor due to lower earned bonuses in 2016 with the decline in CFR and profit compared to 2015;
- An increase of \$1,156,000 in bad debt expense primarily for increased reserves for certain accounts receivable in the Middle East.

**Operating Profit (dollars in thousands)**

	Three Months Ended June 30,						Change	
	2016		2015					
		% of CFR			% of CFR			
Project Management	\$ 11,618	10.5%	\$ 15,041	12.9%	\$ (3,423)	(22.8)%		
Share of loss of equity method affiliate	(31)	(0.0)	(34)	(0.0)	3	8.8		
Total Project Management	11,587	10.5	15,007	12.9	(3,420)	(22.8)		
Construction Claims	4,556	10.7	4,772	11.0	(216)	(4.5)		
Corporate	(7,950)		(9,127)		1,177	(12.9)		
Total	\$ 8,193	5.4%	\$ 10,652	6.7%	\$ (2,459)	(23.1)%		

The decrease in Project Management operating profit included decreases in the Middle East, primarily Oman, the United Arab Emirates and Iraq partially offset by increases in the United States.

The decrease in Construction Claims operating profit was primarily due to decreases in the United States and Latin America partially offset by increases in Europe.

[Table of Contents](#)

Corporate expenses decreased by \$1,177,000 which was primarily due to decreases in legal fees and other expenses. Corporate expenses represented 5.2% of CFR during the second quarter ended June 30, 2016 compared to 5.7% during the second quarter ended June 30, 2015.

**Interest Expense and Related Financing Fees, net**

Net interest and related financing fees decreased \$193,000 to \$3,338,000 in the three months ended June 30, 2016 as compared with \$3,531,000 in the three months ended June 30, 2015.

**Income Taxes**

For the three months ended June 30, 2016 and 2015, the Company recognized income tax expense of \$3,378,000 and \$2,586,000, respectively. The income tax expense in both periods was related to the pre-tax income generated from foreign operations adjusted for discrete items during the period and without recognizing an income tax benefit related to the U.S. net operating loss which management believes the Company will not be able to utilize. The Company recognized an income tax benefit related to an increase in the reserve for uncertain tax positions totaling \$0 and \$245,000 for the three months ended June 30, 2016 and 2015, respectively. The Company's income tax expense (benefit) for the three months ended June 30, 2016 and 2015 were \$535,000 and (\$85,000), respectively, resulting from adjustments to agree the prior year book amount to the actual amounts per the tax return.

The effective income tax rates for the three months ended June 30, 2016 and 2015 were 69.6% and 36.3%, respectively. For both years, the Company's effective tax rate is significantly higher than it otherwise would be primarily as a result of various foreign withholding taxes and not being able to record an income tax benefit related to the U.S. net operating loss.

**Net Earnings Attributable to Hill International, Inc.**

Net earnings attributable to Hill International, Inc. for the three months ended June 30, 2016 were \$1,490,000, or \$0.03 per diluted common share, based on 51,948,000 diluted common shares outstanding, as compared to net earnings for the three months ended June 30, 2015 of \$4,395,000, or \$0.09 per diluted common share, based upon 51,495,000 diluted common shares outstanding.

**Six Months Ended June 30, 2016 Compared to  
Six Months Ended June 30, 2015**

**Consulting Fee Revenue (“CFR”) (dollars in thousands)**

	Six Months Ended June 30,				Change	
	2016		2015			
Project Management	\$ 226,705	73.1%	\$ 228,581	73.5%	\$ (1,876)	(0.8)%
Construction Claims	83,214	26.9	82,298	26.5	916	1.1
<b>Total</b>	<b>\$ 309,919</b>	<b>100.0%</b>	<b>\$ 310,879</b>	<b>100.0%</b>	<b>\$ (960)</b>	<b>(0.3)%</b>

The decrease in CFR included an organic decrease of 0.8% primarily in the Middle East and Latin America, partially offset by an increase of 0.5% due to the acquisitions IMS Proje Yonetimi ve Danismanlik A.S. (“IMS”) in April 2015.

The decrease in Project Management CFR included an organic decrease of 1.5%, partially offset by an increase of 0.7% due to the acquisition of IMS. The decrease included a \$7,671,000 decrease in international projects, partially offset by an increase of \$5,795,000 in domestic projects. The decrease in international Project Management CFR was due primarily to decreases in the Middle East and Latin America. The increase in domestic CFR occurred throughout the United States.

The increase in Construction Claims CFR was all organic and included increases in Europe and Australia, partially offset by decreases in the United States and Latin America.

**Reimbursable Expenses (dollars in thousands)**

	Six Months Ended June 30,				Change	
	2016		2015			
Project Management	\$ 39,510	94.3%	\$ 38,466	93.7%	\$ 1,044	2.7%
Construction Claims	2,381	5.7	2,571	6.3	(190)	(7.4)
<b>Total</b>	<b>\$ 41,891</b>	<b>100.0%</b>	<b>\$ 41,037</b>	<b>100.0%</b>	<b>\$ 854</b>	<b>2.1%</b>

Reimbursable expenses consist of amounts paid to subcontractors and other third parties, and travel and other job-related expenses that are contractually reimbursable from clients. These items are reflected as separate line items in both our revenue and cost of services captions in our consolidated statements of operations. The increase in reimbursable expense is primarily due to higher use of subcontractors in our Mid-Atlantic region partially offset by a decrease in subcontractors in the Northeast region.

**Cost of Services (dollars in thousands)**

	Six Months Ended June 30,						Change	
	2016		2015					
		% of CFR		% of CFR				
Project Management	\$ 146,145	79.5%	\$ 142,106	79.5%	\$ 4,039	2.8%		
Construction Claims	37,666	20.5	36,723	20.5	943	2.6		
<b>Total</b>	<b>\$ 183,811</b>	<b>100.0%</b>	<b>\$ 178,829</b>	<b>100.0%</b>	<b>\$ 4,982</b>	<b>2.8%</b>		

Cost of services consists of labor expenses for time charged directly to contracts and non-reimbursable job-related travel and out-of-pocket expenses. The increase in Project Management cost of services is primarily due to increases in the United States in support of increased work.

The increase in the cost of services for Construction Claims was due primarily to increases in direct cost in Europe and Australia in support of the increase in CFR.

	2016		2015					
		% of CFR		% of CFR				
Project Management	\$ 80,560	63.9%	35.5%	\$ 86,475	65.5%	37.8%	\$ (5,915)	(6.8)%
Construction Claims	45,548	36.1	54.7	45,575	34.5	55.4	(27)	(0.1)
Total	<u>\$ 126,108</u>	<u>100.0%</u>	<u>40.7%</u>	<u>\$ 132,050</u>	<u>100.0%</u>	<u>42.5%</u>	<u>\$ (5,942)</u>	<u>(4.5)%</u>

The decrease in Project Management gross profit included decreases from Oman, Qatar and Iraq partially offset by increases in the United States.

The decrease in Construction Claims gross profit was driven by decreases in the United States and Latin America, partially offset by increases in Europe.

The overall gross profit percentage decreased due to lower margins achieved in the Middle East, primarily Oman, Qatar and Iraq.

**Selling, General and Administrative (“SG&A”) Expenses (dollars in thousands)**

	Six Months Ended June 30,				Change	
	2016		2015			
		% of CFR		% of CFR		
SG&A Expenses	\$ 112,367	36.3%	\$ 115,574	37.2%	\$ (3,207)	(2.8)%

The decrease in selling general and administrative expenses was primarily due to the following:

- A decrease in unapplied and indirect labor of \$1,491,000 due to staff reductions in late 2015 and early 2016 due to decreased CFR;
- A decrease in legal fees of \$1,331,000 due primarily to \$1,048,000 expended in 2015 for an employee labor dispute;
- A decrease of \$593,000 in amortization expense for fully or partially amortized costs in 2015;
- A reversal of an earn-out liability of \$673,000 for IMS which was not earned as of the twelve month measurement date;
- A decrease of \$354,000 in administrative travel costs as a result of cost cutting initiatives initiated in the second half of 2015;
- An increase of \$1,355,000 in bad debt expense primarily for increased reserves for certain accounts receivable in the Middle East.

**Operating Profit (dollars in thousands)**

	Six Months Ended June 30,				Change	
	2016		2015			
		% of CFR		% of CFR		
Project Management	\$ 23,623	10.4%	\$ 27,829	12.2%	\$ (4,206)	(15.1)%

Total	<u>\$ 13,725</u>	<u>4.4%</u>	<u>\$ 16,258</u>	<u>5.2%</u>	<u>\$ (2,533)</u>	<u>(15.6)</u>

[Table of Contents](#)

The decrease in Project Management operating profit included decreases in the Middle East primarily Oman, Qatar, and Iraq, partially offset by an increase in the United States.

The increase in Construction Claims operating profit was primarily due to increases in the United Kingdom and Australia partially offset by decreases in the United States and Latin America.

Corporate expenses decreased by \$1,148,000 including decreases in indirect labor due to lower bonus accruals and lower costs related to stock based compensation due to the lower stock price.

Corporate expenses represented 5.6% of CFR during the six months ended June 30, 2016 compared to 5.9% during the six months ended June 30, 2015.

**Interest Expense and Related Financing Fees, net**

Interest and related financing fees decreased \$370,000 to \$6,735,000 during the six months ended June 30, 2016 compared to \$7,105,000 during the six months ended June 30, 2015.

**Income Taxes**

For the six months ended June 30, 2016 and 2015, the Company recognized an income tax expense of \$4,059,000 and \$3,770,000, respectively. The income tax expense in both periods was related to the pre-tax income generated from foreign operations adjusted for discrete items during the period and without recognizing an income tax benefit related to the U.S. net operating loss which management believes the Company will not be able to utilize. For the six months ended June 30, 2016 and 2015, the Company recognized an income tax (benefit) expense related to an increase in the reserve for uncertain tax positions totaling (\$14,000) and \$245,000, respectively, primarily due to tax positions taken in foreign jurisdictions. The Company also recognized an income tax expense resulting from adjustments to agree the prior year's book amounts to the actual amounts per the tax returns totaling \$535,000 and \$0 in the six months ended June 30, 2016 and 2015, respectively.

The effective income tax rates for the six months ended June 30, 2016 and 2015 were 58.1% and 41.2%, respectively. For both years, the Company's effective tax rate is significantly higher than it otherwise would be primarily as a result of various foreign withholding taxes and not being able to record an income tax benefit related to the U.S. net operating loss.

**Net Earnings Attributable to Hill International, Inc.**

Net earnings attributable to Hill International, Inc. for the six months ended June 30, 2016 were \$2,940,000, or \$0.06 per diluted common share, based upon 51,777,000 diluted common shares outstanding, as compared to net earnings for the six months ended June 30, 2015 of \$5,097,000, or \$0.10 per diluted common share, based upon 51,010,000 diluted common shares outstanding.

**Non-GAAP Financial Measures**

Regulation G, conditions for use of Non-Generally Accepted Accounting Principles ("Non-GAAP") financial measures, and other SEC regulations define and prescribe the conditions for use of certain Non-GAAP financial information. Generally, a Non-GAAP financial measure is a numerical measure of a company's performance, financial position or cash flow that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. We believe earnings before interest, taxes, depreciation and amortization ("EBITDA"), in addition to operating profit, net earnings and other GAAP measures, is a useful indicator of our financial and operating performance and our ability to generate cash flows from operations that are available for taxes, capital expenditures and debt service. This measure, however, should be considered in addition to, and not as a substitute for or superior to, operating profit, cash flows, or other measures of financial performance prepared in accordance with GAAP. Investors should also be aware that this non-GAAP measure may not be comparable to a similarly-titled measure of other companies. The following table is a reconciliation of EBITDA to the most directly comparable GAAP measure in accordance with SEC Regulation S-K for the three and six months ended June 30, 2016 and 2015 (in thousands):

[Table of Contents](#)

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Net earnings	\$ 1,490	\$ 4,395	\$ 2,940	\$ 5,097
Interest expense, net	3,338	3,531	6,735	7,105
Income tax expense	3,378	2,586	4,059	3,770
Depreciation and amortization	2,544	2,983	5,200	5,423
EBITDA	<u>\$ 10,750</u>	<u>\$ 13,495</u>	<u>\$ 18,934</u>	<u>\$ 21,395</u>

#### Liquidity and Capital Resources

At June 30, 2016, our primary sources of liquidity consisted of \$24,922,000 of cash and cash equivalents, of which \$24,017,000 was on deposit in foreign locations, and \$8,983,000 of available borrowing capacity under our various credit facilities. See Note 7 to our consolidated financial statements for a description of our credit facilities and term loan. We believe that we have sufficient liquidity to support the reasonably anticipated cash needs of our operations over the next twelve months. However, significant unforeseen events, such as termination or cancellation of major contracts, could adversely affect our liquidity and results of operations. If market opportunities exist, we may choose to undertake financing actions to further enhance our liquidity, which could include borrowing additional funds under our credit agreements, obtaining new bank debt, raising funds through capital market transactions, or other strategic initiatives. See “Sources of Additional Capital” for further information.

In 2012, we commenced operations on the Oman Airport project with the Ministry of Transportation and Communications (the “MOTC”). The original contract term was to expire in November 2014. In October 2014, we applied for a twelve-month extension of time amendment (“first extension”) (which was subsequently approved in March 2016), and we continued to work on the Oman Airport project. We began to experience some delays in payment during the second quarter of 2015 when MOTC commenced its formal review and certification of our invoices. In December 2015, we began discussions with the MOTC on a second extension of time amendment (which was approved in March 2016) and have since commenced additional work, which we expect to last approximately 18 months. When the MOTC resumed payments, we received approximately \$15,000,000 in March, approximately \$1,800,000 in April and approximately \$14,100,000 in June. At June 30, 2016, accounts receivable from Oman totaled approximately \$31,400,000 of which approximately \$15,200,000 was past due. Management expects to collect approximately \$14,300,000 against the past-due accounts receivable in the third quarter of 2016.

The amount of CFR attributable to operations in the Middle East and Africa has grown from approximately 32% in 2011 to approximately 51% of total consolidated CFR in the first half of 2016. We have recently experienced a slowdown in its collections from our other clients in the Middle East primarily due to the recent drop in oil prices. This has put a considerable strain on our liquidity. As a result, we have had to rely heavily on debt and equity transactions to fund our operations and we may continue to our reliance on debt and equity transactions for our liquidity needs in the next 1 to 18 months. Any additional delays in payments from MOTC or other foreign governments may have a negative impact on our liquidity and financial covenants, which could have an adverse effect on our financial position and results of operations.

### **Additional Capital Requirements**

Our subsidiary, Hill International (Spain), S.A. (“Hill Spain”), owns an indirect 91% interest in Engineering S.A. (“ESA”), a firm located in Brazil. ESA’s shareholders entered into an agreement whereby the minority shareholders have a right to compel (“ESA Put Option”) Hill Spain to purchase any or all of their shares during the period from February 28, 2014 to February 28, 2021. Hill Spain also has the right to compel (“ESA Call Option”) the minority shareholders to sell any or all of their shares during the same time period. The purchase price for such shares shall be seven times the earnings before interest and taxes for ESA’s most recently ended fiscal year, net of any financial debt plus excess cash multiplied by a percentage which the shares to be purchased bear to the total number of shares outstanding at the time of purchase, but in the event the ESA Call Option is exercised by Hill Spain, the purchase price shall be increased by five percent. The ESA Put Option and the ESA Call Option must be made within three months after the audited financial statements of ESA have been completed. On June 17, 2016, the three remaining minority shareholders exercised their ESA Put Option with a value of BRL 8,656,000 (approximately \$2,670,000 at June 30, 2016). This amount is subject to negotiation with the three minority shareholders.

On October 31, 2014, our subsidiary Hill International (UK) Ltd. acquired all of the outstanding common stock of Angus Octan Scotland Ltd., which included its subsidiary companies Cadogan Consultants Ltd., Cadogan Consult Ltd. and Cadogan International Ltd. (collectively, “Cadogans”). Total consideration for the acquisition was £2,719,000 (approximately \$4,350,000 at the date of acquisition). Cash payments of £2,000,000 (\$3,200,000) were made during 2014. The remaining payouts consist of a cash payment of £519,000 (\$830,000) to be paid on October 31, 2015 plus a potential earn out based upon Cadogans’ average earnings before interest, taxes, depreciation and amortization (“EBITDA”) for the two-year period ending on October 31, 2016 (which amount shall not be less than £0 nor more than £200,000).

Two of the selling shareholders of Cadogans may receive an earn-out in annual installments of up to £100,000 (\$135,000 at June 30, 2016), which will be charged to earnings, provided that Cadogans’ EBITDA for each of the years ending October 31, 2016, 2017, 2018 and 2019 is greater than £396,000 (\$533,000).

On April 15, 2015, our subsidiary, Hill International N.V., acquired all of the equity interest of IMS Proje Yonetimi ve Danismanlik A.S. (“IMS”). A potential remaining payment of TRY 1,491,000 (\$529,000) is due in the third quarter of 2016.

### **Sources of Additional Capital**

We have an effective registration statement on Form S-3 on file with the U.S. Securities and Exchange Commission (the “SEC”) to register 20,000,000 shares of our common stock for issuance and sale by us at various times in the future. To date, we have issued 9,546,629 shares, leaving a balance of 10,453,371 shares. The proceeds, if any, will be used for working capital and general corporate purposes, subject to the restrictions of our Secured Credit Facility. We cannot predict the amount of proceeds from those future sales, if any, or whether there will be a market for our common stock at the time of any such offering or offerings to the public.

In addition, we have an effective registration statement on Form S-4 on file with the SEC to register 20,000,000 shares of our common stock for issuance in connection with business acquisitions. To date, we have issued 1,073,196 shares under this registration statement, leaving a balance of 18,926,804 shares. We cannot predict whether, in the future, we will offer these shares to potential sellers of businesses or assets we might consider acquiring or whether these shares will be acceptable as consideration by any potential sellers.

At June 30, 2016, we had \$4,948,000 of available borrowing capacity under our domestic credit agreement and \$4,035,000 of available borrowing capacity under our various foreign credit agreements.

[Table of Contents](#)

We also have relationships with other foreign banks for the issuance of letters of credit, letters of guarantee and performance bonds in a variety of foreign currencies. At June 30, 2016, we had approximately \$51,193,000 of availability under these arrangements.

We cannot provide any assurance that any other sources of financing will be available, or if available, that the financing will be on terms acceptable to us.

**Cash Flow Activity During the Six Months Ended June 30, 2016**

For the six months ended June 30, 2016, our cash and cash equivalents increased by \$833,000 to \$24,922,000. Cash provided by operations was \$2,569,000, cash used in investing activities was \$783,000 and cash used in financing activities was \$176,000. We also experienced a decrease in cash of \$777,000 from the effect of foreign currency exchange rate fluctuations.

***Operating Activities***

Our operations provided cash of \$2,569,000 for the six months ended June 30, 2016. This compares to cash used in operating activities of \$7,469,000 for the six months ended June 30, 2015. We had consolidated net earnings in the six months ended June 30, 2016 amounting to \$2,931,000 compared to consolidated net earnings of \$5,383,000 in the six months ended June 30, 2015. Depreciation and amortization was \$5,200,000 in the six months ended June 30, 2016 compared to \$5,423,000 in the six months ended June 30, 2015; the decrease in this category is primarily due to the full amortization of the shorter-lived intangible assets of companies which we acquired over the last several years offset by amortization of intangibles arising from the acquisitions of Cadogans and IMS and the increase in property and equipment primarily related to the relocation of our corporate headquarters to Philadelphia.

Cash held in restricted accounts as collateral for the issuance of performance and advance payment bonds and letters of credit at June 30, 2016 and December 31, 2015 were \$4,132,000 and \$4,694,000, respectively.

Average days sales outstanding (“DSO”) at June 30, 2016 was 111 days compared to 98 days at June 30, 2015 and 117 days at March 31, 2016. DSO is a measure of our ability to collect our accounts receivable and is calculated by dividing the total of the period-end billed accounts receivable balance by average daily revenue (i.e., revenue for the quarter divided by 90 days). The increase in DSO in 2016 from 2015 was due to a slowing of collections from our clients in the Middle East, particularly Oman. Also, the age of our receivables is adversely affected by the timing of payments from our clients in Europe and Africa, which have historically been slower than payments from clients in other geographic regions of the Company’s operations.

Although we continually monitor our accounts receivable, we manage our operating cash flows by managing the working capital accounts in total, rather than by individual elements. The primary elements of our working capital are accounts receivable, prepaid and other current assets, accounts payable and deferred revenue. Accounts receivable consist of billing to our clients for our consulting fees and other job-related costs. Prepaid expenses and other current assets consist of prepayments for various selling, general and administrative costs, such as insurance, rent, maintenance, etc. Accounts payable consist of obligations to third parties relating primarily to costs incurred for specific engagements, including pass-through costs such as subcontractor costs. Deferred revenue consists of payments received from clients in advance of work performed.

From year to year, the components of our working capital accounts may reflect significant changes. The changes are due primarily to the timing of cash receipts and payments within our working capital accounts combined with increases in our receivables and payables relative to the increase in our overall business, as well as our acquisition activity.

***Investing Activities***

We used \$783,000 for the purchase of leasehold improvements, computers, office equipment, furniture and fixtures.

### **Financing Activities**

Net cash used in financing activities was \$176,000. We repaid \$600,000 against the 2014 Term Loan Facility and \$27,000 against the Philadelphia Industrial Corporation loan. We had net borrowings of \$348,000 under our credit facility. We received \$214,000 from purchases under our Employee Stock Purchase Plan and the exercise of stock options. We paid \$111,000 as dividends to the noncontrolling interest.

### **Recent Accounting Pronouncements**

On May 28, 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09 *Revenue from Contracts with Customers*, which will replace most existing revenue recognition guidance in U.S. GAAP, including industry specific guidance. The core principle of the ASU is that an entity should recognize revenue for the transfer of goods or services equal to the amount that it expects to be entitled to receive for those goods or services. The ASU requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments. The ASU allows for either retrospective or prospective adoption. The ASU was to be effective for interim and annual periods commencing after December 15, 2016, however, in August 2015, the FASB issued ASU 2015-14 which defers the effective date for one year. Early adoption is permitted as of January 1, 2017. We are in the process of determining the method of adoption and assessing the impact of the ASU on our consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments — Overall (Topic 825-10)*, which requires all equity investments to be measured a fair value with changes in fair value recognized through net income (other than those accounted for under equity method of accounting or those that result in consolidation of the investee). The amendments in this ASU also require an entity to (1) present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments and (2) provide separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements. In addition, the amendments in this ASU eliminate the requirement to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet. This ASU is effective for us commencing January 1, 2018. We are in the process of assessing the impact of this ASU on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which will require us to recognize lease assets and lease liabilities (related to leases previously classified as operating under previous GAAP) on our consolidated balance sheet. The ASU will be effective for us commencing January 1, 2019. We are in the process of assessing the impact of this ASU on our consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments (Topic 326) — Credit Losses: Measurement of Credit Losses on Financial Instruments*, which provides guidance regarding the measurement of credit losses on financial instruments. The new guidance replaces the incurred loss impairment methodology in the current guidance with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to determine credit loss estimates. This ASU is effective for us commencing January 1, 2020 with early adoption permitted commencing January 1, 2019. We are in the process of assessing the impact of this ASU on our consolidated financial statements.

### **Quarterly Fluctuations**

Our operating results vary from period to period as a result of the timing of projects and assignments. We do not believe that our business is seasonal.

**Backlog**

We believe a strong indicator of our future performance is our backlog of uncompleted projects under contract or awarded. Our backlog represents management's estimate of the amount of contracts and awards in hand that we expect to result in future consulting fee revenue. Project Management backlog is evaluated by management, on a project-by-project basis, and is reported for each period shown based upon the binding nature of the underlying contract, commitment or letter of intent, and other factors, including the economic, financial and regulatory viability of the project and the likelihood of the contract being extended, renewed or cancelled. Construction Claims backlog is based largely on management's estimates of future revenue based on known construction claims assignments and historical results for new work. Because a significant number of construction claims may be awarded and completed within the same period, our actual construction claims revenue has historically exceeded backlog by a significant amount.

Our backlog is important to us in anticipating and planning for our operational needs. Backlog is not a measure defined in U.S. GAAP, and our methodology for determining backlog may not be comparable to the methodology used by other companies in determining their backlog.

At June 30, 2016, our backlog was \$949,000,000 compared to \$866,000,000 at March 31, 2016. Our net bookings during the second quarter of 2016 of \$235,614,000, which equates to a book-to-bill ratio of 154.4%, exceeded our goal of at least 110%. This will continue to be a major area of focus in 2016. We estimate that approximately \$414,000,000, or 43.6%, of the backlog at June 30, 2016 will be recognized during the twelve months subsequent to June 30, 2016.

Although backlog reflects business that we consider to be firm, cancellations or scope adjustments may occur. Further, substantially all of our contracts with our clients may be terminated at will, in which case the client would only be obligated to us for services provided through the termination date. Historically, the impact of terminations and modifications on our realization of revenue from our backlog has not been significant; however, there can be no assurance that such changes will not be significant in the future. Furthermore, reductions of our backlog as a result of contract terminations and modifications may be offset by additions to the backlog.

We adjust backlog to reflect project cancellations, deferrals and revisions in scope and cost (both upward and downward) known at the reporting date. Future contract modifications or cancellations, however, may increase or reduce backlog and future revenue.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Refer to the Company's 2015 Annual Report on Form 10-K for a complete discussion of the Company's market risk. There have been no material changes to the market risk information included in the Company's 2015 Annual Report.

**Item 4. Controls and Procedures**

The management of the Company, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of June 30, 2016. Management concluded that, due to the on-going remediation associated with the material weakness identified in our 2015 Annual Report on Form 10-K ("2015 Form 10-K"), our disclosure controls and procedures were ineffective as of June 30, 2016 to provide reasonable assurance that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system will be met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the company have been detected. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected. However, our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives.

### **Changes in Internal Control over Financial Reporting**

Our remediation efforts were ongoing during the three months ended June 30, 2016, and, other than those remediation efforts described in “Management’s Remediation Initiatives” in Item 9A of our 2015 Form 10-K, there were no other material changes in our internal control over financial reporting that occurred during the three months ended June 30, 2016 that materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

However, as explained in greater detail under Item 9A of our 2015 Form 10-K for the year ended December 31, 2015, we have, or are in the process of, implementing a broad range of remedial procedures to address the material weaknesses in our internal control over financial reporting identified in our 2015 Form 10-K. Our efforts to improve our internal controls are ongoing and focused on:

- Enhancing existing procedures and controls to more thoroughly assess unusual significant items. While we have completed our initial testing of these new controls and have concluded they are in place and operating as designed, we are monitoring their ongoing effectiveness, and will consider the material weakness remediated after the applicable remedial controls operate effectively for an additional period of time.
- Enhancing our close the books processes at the corporate and local levels to ensure effective management reviews and communication with accounting personnel over the accounting for estimates and non-routine transactions.

Therefore, while there were no changes, other than the matter discussed above, in our internal control over financial reporting in the three months ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, we continued monitoring the operation of these remedial measures through the date of this Form 10-Q.

For a more comprehensive discussion of the material weaknesses in internal control over financial reporting identified by management as of December 31, 2015, and the remedial measures undertaken to address these material weaknesses, investors are encouraged to review Item 9A, Controls and Procedures, in our 2015 Form 10-K.

## Section 302 Certification of Chief Executive Officer

I, David L. Richter, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Hill International, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures; and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
